

How can you Make  
Children's Hospital  
Stays Less Scary?

Bring Them  
to Us!

The  
Children's Unit

At Baptist Beaumont Hospital we understand that a visit to the hospital can be a scary experience for children. That's why we are the first hospital in the region to have a certified Child Life Specialist offering the following:

- Age-appropriate activities—games, toys, music, movies, arts and crafts projects—in playrooms and patient rooms
- Medical play to help children learn about various tests, procedures and surgeries
- Education for parents on childhood growth and development and the effects of illness, injury and hospitalization
- Orientation to the hospital through tours and individualized play
- Hospital-stay coping tips

In our Children's Unit, Emergency Room,  
Neonatal Intensive Care Unit, Radiology and Surgery Suites...
