

# Do you know what your risk of having a heart attack is?

## **Does one or more of these conditions apply?**

- Family or personal history of coronary artery disease
- Male over 45 years of age, female over 50 years of age
- Past or present smoker
- History of high cholesterol, diabetes, or high blood pressure
- Overweight
- Inactive lifestyle

## **What do you need to do?**

- Schedule your appointment – **409-212-7167**
- Fast for 8 hours prior to the exam
- Lab Work – the lipid profile requires a blood sample. This measures the levels of total cholesterol, triglycerides, low density lipids (BAD CHOLESTEROL) and high density lipids (GOOD CHOLESTEROL)
- Cardiac Calcium Score – this exam is performed in a CT Scanner and only takes about 3 minutes

This exam is not covered by insurance, but Baptist Beaumont Hospital can offer a Cardiac Calcium Score and a blood lipid profile – evaluated by a cardiologist and the results mailed back to you within 24 hours, for \$125.00. We can also send the results to your family physician or, if you do not have a doctor, we can help you get the care you need through our physician network.
